- Extra wide and comfortable waist stretch
- Adult sizes: S/M, L/XL and 2XL/3XL

Boot Resoling – done right!

Established in 1988 DUBUN SHOE REPAIRS AND ALTERATIONS is based in Pretoria with three outlets. Their business has a loyal customer following built over the past 27 years. They pride themselves in quality workmanship and personalised customer service.

In the earlier days the business focused their attention on a wide range of footwear repairs and clothing alterations. Over time their customers started bringing in a variety of hand and luggage bags for repairs which built a competency to work with more robust materials. During 2012 the current owner (who is also a biker) recognised that many fellow bikers were having difficulties getting their riding kit repaired properly and especially when it came to having their boots resoled correctly. As a result of this pressing need DUBUN commenced serving the biking community. They resole MX/ Enduro and all other riding boots as well as carry out repairs on MX/ Enduro riding pants including the replacement of leather knee patches. The DUBUN Menlyn Retail Park Branch in Pretoria is located off the Garsfontein Road, two minutes from the Garsfontein Off-ramp. This makes it relatively easy to access DUBUN Menlyn from anywhere in the Gauteng region once one is on the highway.

Norman Siebert, the owner of DUBUN, says that with the many courier service options now available, it is possible for any biker in South Africa to have their riding gear fixed by DUBUN. As riding gear is a critical safety item they only use top quality materials when doing repairs.

How it's done: The old soles are removed by peeling them off (as opposed to cutting them off) with the help of solvents so as not to damage the midsole. The new sole and the mid sole of the boot go through a rigorous preparation process to insure that when the combination of adhesives are applied (that must cure for 24 hours) maximum adhesion will result. This process makes DUBUN's resoling durable.

How long it takes: It normally takes two days (which is probably the fastest turnaround resoling we have ever experienced).

Guarantee: Dubun guarantees their workmanship, if the sole had to come loose they would refit it at no charge to the customer.

Before

During

After

RECOMMENDED RETAIL PRICE ZAR 950 per pair (Gaerne soles and toe caps fitted)
 ZAR 350 per pair if customer supplies their own soles and toe caps
 ZAR 425 per pair if customer supplies soles and DUBUN the toe caps

The above prices are applicable if there is no damage to the mid sole region of the boot. Some of the guys ride with their boots after the sole is worn through which damages the mid sole. This section must then be replaced before the new soles can be fitted.

DUBUN Menlyn Retail Park is open Monday to Friday from 8am – 5:30pm, Saturday 8am – 3pm and Sunday 9am – 1pm. For more info contact them on 012 348 1030.
